

Getting Started

As a new phase is introduced in Crossings, we sell 50% of the lots to our selected group of builders. The remaining 50% are made available to the public. That means that if you want to purchase a lot in Crossings, you can go one of two ways:

1. **purchase a lot from Lethbridge Land**
2. **design and build a home with one of our selected builders**

Both streams have distinct advantages and both present some limitations. Explore both options and decide which best fits for you.

Learn more about the lot draw process.
